### **My Favorite Holiday: Christmas**

Christmas is a peaceful time to celebrate with family and friends all over the world. In Ecuador, Catholics celebrate the birth of Jesus Christ with joy and pray during this time. Christmas is the most beautiful time of the year because of the gift exchange and its delicious food.

First, the gift exchange is a great time to have fun with family and friends. It is a game that started before Christmas night. Someone choose a piece of paper with a secret name to be the secret fiend to whom on Christmas night you will give him / her a present. For example, in 2022 my classmates and I played it and it was very fun. My secret friend was Angely and I was the secret friend of Stephy.

Among that, Christmas food is just the best. It is because it is extraordinary flavor and because it is share with the whole family. I like a lot to make Christmas dinner since the whole family collaborates. For example, I make two kinds of salads with my cousins. My mom makes the turkey. My aunt makes the Christmas rice and uncle makes a spectacular desert.

In conclusion, Christmas is more than to get a present or to share a delicious food, it is to share special times with your dear ones and to give others love and peace without waiting to get something back.
