

The background features a light blue gradient with a large, stylized human silhouette in a light orange color on the left side. The silhouette is shown from the back, with arms slightly away from the body. There are several large, pink, oval shapes scattered across the background, some with darker pink outlines. A thick, light pink diagonal band runs from the top right towards the bottom center. The main title is written in a large, black, cursive script with a slight shadow effect.
