EXAMPLES

There are many reasons that I love to teach. First of all, I love to teach because I love being at school. Another reason I love teaching is that the days go by quickly. A third reason I love to teach is because I love seeing a student understand something new. These are just a few reasons I love to teach.

My winter break was great! Although it was quite cold and windy, I had a great time skiing in the mountains. In addition, my new skis fitted me perfectly. Actually, they are the best skis I have ever had. Besides skiing, I also had time to catch up with some old friend. In fact, we met several times during the week. Therefore, I will rate this vacation as the best one ever!

EXERCISE AND HEALTHY HABITS

I consider I am not very good at exercising and having healthy habits. First of all, I do not practice sports, I think I do not have the skills for sports. Second, I sometimes eat junk food for example I eat hamburgers, pizza, soda when I do not have time to cook. Third, I do not respect the hours to eat, somedays I eat breakfast at 7:00 am but others I eat

at 10:00. In conclusion, I am not very good at exercising and eating healthy.
