

PROJECT: “Our World City”

Level: B1

Group size: 3–4 students

Final product: A city map on a poster + video presentation

Project Goal: You will create an imaginary city that includes famous landmarks and common city features. You will describe your city using **city vocabulary**, **prepositions of place**, and the **present perfect tense with *already* and *yet*** in a creative video presentation.

1. **Form a group of 3 or 4 people.**
2. **Create your own imaginary city** by combining:
 - **6 to 8 famous landmarks** from around the world
(Examples: Statue of Liberty, Eiffel Tower, Pyramids of Egypt, Big Ben, Colosseum, Brooklyn Bridge, etc.)
 - **Other city features** using the vocabulary from class
(Examples: bridge, tunnel, bike lane, fountain, tower, avenue, etc.)
3. **Give your city a creative name.**
Be original, futuristic, funny, or imaginative!
4. **Draw a detailed map of your city** on a poster:
 - Label **streets, neighborhoods, landmarks, and city features**
 - Organize the map clearly
 - Use **prepositions of place** (e.g., next to, behind, between, across from, in front of) to describe where things are located
5. **Add extra details about each landmark** when presenting.
Example:
 - *The Eiffel Tower is in the city center. It was built in 1889 and attracts millions of visitors every year.*
 - *The Pyramids are behind the stadium. They're more than 4,000 years old and made of limestone blocks.*
6. **Use the Present Perfect with *already* and *yet*** while describing your poster in the video.
 - ◆ **Each student must say at least one sentence using this grammar.**
 - ◆ You should use **at least four present perfect sentences** in total.
 - ◆ Use it to talk about:
 - What features or landmarks **you've already added** to your city
 - What features or ideas **you haven't added yet**

✓ Examples to use in your video:

- *We've already placed the Eiffel Tower in the center of our city.*
 - *We've already built a bike lane that goes across the entire city.*
 - *We haven't added the Statue of Liberty yet, but we're planning to put it near the river.*
 - *We haven't finished labeling all the neighborhoods yet.*
7. **Record your video presentation (4–6 minutes):**
 - Show your **poster**
 - **All group members must speak**
 - Describe the layout of your city, landmarks, and locations
 - Use **prepositions of place**
 - Include **extra details** about the landmarks
 - Use the **present perfect with *already* and *yet*** as explained above
 8. **Submit your video** to the virtual classroom.
