

Video Project: “If We Ruled the World...”

You and your partner will record a **short video (3–5 minutes)** imagining how life would be different *if you ruled the world or created your own country*

This project is about speaking creatively and practicing the **second conditional**!

1. **Work in pairs**

You and your partner will work together to **record a video**.

2. **Imagine your own world or country.**

Pretend you are the leaders! Talk about:

- What would life be like?
- What rules or changes would you make?
- What would people do in your world?

3. **Speak naturally—no need to write a full script.**

You can plan your ideas, but speak freely during the video.

4. **Use at least 8 second conditional sentences.**

Example:

- *If I ruled the world, there would be no homework.*
- *If people lived in space, they would need special homes.*

5. **Each person must speak and say at least 4 second conditional sentences.**

6. **Record your video (3 to 5 minutes long):**

- You can include props, drawings, or a digital background
- Be creative and original!

7. **Upload your video to the virtual classroom.**
